MAGICOOL RANGE
COMPACT MAGICOOL

- Sleek design for any location
- Easily transportable
- Whisper quiet operation
- Powerful 3 Speed Stealth fan

MAGICOOL *all of the above plus*

- carry handle
- flip out foot adjusts angle of airflow

CLIMATE WIZARD *all of the above plus*

- 3-in-1 air cleaner, humidifier and cooler
- 3M Filtrete technology filters dust, spores, mould & other contaminants
- Relieves the discomforts of stale, dry and overheated air

COMMANDER 3000

- Massive 1328m³ per hour airflow
- Ideal for large rooms
- Powerful 3 speed centrifugal fan

Convair portable evaporative air conditioners

Cool, quiet, efficient... and natural, that's Convair

By utilising the natural phenomena of evaporation, Evaporative Cooling brings the comfort of a sea breeze wherever and whenever you want it.

COOLING THAT'S FRESH AND NATURAL

Evaporative cooling works by drawing fresh air from a partially open door or window and cooling it naturally by passing it through water soaked pads providing cooling that is refreshingly natural. Nothing could be simpler, cleaner or healthier.

COOLING THAT COSTS LESS

Convair portable evaporative air conditioners are versatile, easy to move and incredibly inexpensive to operate. In fact, with Convair, you can cool almost any room in your home or office for less than the cost to run a humble light bulb (under 0.5 pence per hour).

HEALTHIER FOR THE ENVIRONMENT

Evaporative cooling is totally natural. Unlike conventional air conditioning systems, Convair evaporative air conditioners contain no harmful CFC gases which can pollute the atmosphere.

HEALTHIER FOR YOU

Because the air is 100% fresh, fumes and airborne dust and stale air are flushed from the room thus improving health and living conditions.

MILLENNIA MASTERCOOL & MEGACOOOL

- Natural Aspen wetting medium
- 3 speed Stealth fan
- Autosweep vanes to distribute airflow (option on Megacool)
- Whisper quiet operation

PRESTIGE 900 & ALL SEASONS

- High performance cooling for any location
- Motorised grille for enhanced air distribution (Prestige 900 only)
- All-Seasons – Includes a 2Kw Heater for year round use

Cooling Capacity calculated to Australian Standard AS 2913 – 2000, ambient of 38°C dry bulb & 21°C wet bulb, with Room exit temperature of 27.4°C. Median Laboratories is registered by the National Association of Testing Authorities, Australia. The tests reported herein have been performed in accordance with it's terms of registration Registration No. 3697

HOW CONVAIR WORKS

For optimum performance, place back of unit next to a window or door opened about 15 cms (6 inches). Open a window or door opposite the unit to create proper air flow.
