

Magicool Evaporative Cooler

Highly portable evaporative fresh air cooling system, ideal for use in your home or office.

Costing less to run than a 60 watt light bulb and using no chemicals, the Convair Magicool offers a superb combination of low running costs, effective cooling, unique styling and environmental friendliness.

The Convair Magicool is a low cost alternative to air conditioning, allowing you to enjoy naturally cooled air and gentle breezes wherever you want them.

Sleek design for any location
Easily transportable
Whisper quiet operation
Ultra powerful 3-speed Stealth fan
Integrated handle and front 'Flip-up' foot
Chilcel™ wetting agent
Requires a through-flow of fresh air

Room Size	Up to 11m²
Power Consumption	58 Watts
Water Capacity	13 Litres
Cooling Effect	405 Watts**
Airflow	662 m³ per hour

Evaporative Cooling

By utilising the natural phenomena of evaporation, Evaporative Cooling brings the comfort of a sea breeze wherever and whenever you want it.

Air is pulled through the cooling medium by a quiet multi-speed fan.

The air is then cooled by the evaporation process.

No refrigerants or environmentally unfriendly chemicals are needed.

The result is clean, cool air

**Cooling Capacity calculated to Australian Standard AS 2913 – 2000, ambient of 38°C dry bulb & 21°C wet bulb, with Room exit temperature of 27.4°C .
