

# MILLENIA

by convair®

*New Millenia  
cooler, quieter,  
years ahead.*

*More cooling power than other Slimline evaporative air conditioners in the world. The Convair Millenia provides in-home performance which is as far ahead of the rest of the field as its futuristic elegance suggests. The Convair Millenia is ideal for cooling medium to large living areas of today's modern homes.*

*New Millenia  
cooler, quieter, years ahead.*

- 3 speed fan
- Advanced corrosion-free polymer construction
- Castor wheels

#### More cooling power than other Slimline evaporative air conditioners in the world

At the very heart of the Millenia is the sophisticated, high-tech and ultra-powerful Stealth®<sup>1</sup> fan. The result is more air flow than any other Slimline evaporative air conditioner in the world. The same goes for cooling power. With an economical 85 watts electrical input, Millenia returns a massive 971\* watts (3300 BTU/hr) of cooling - much more than other Slimline competitors.

*Ultra-powerful  
Stealth® fan*

#### Cool power that won't disturb your sleep

When designing Millenia Stealth® fan, the objective was to maximise air flow and minimise noise levels. The result is technology that provides superior performance on both counts. Imagine cool, fresh undisturbed sleep on the hottest of nights!

*Large controls.  
Easy to read,  
ease to use*

#### Cooling that's fresh, healthy and natural

Like all Convairevaporative air conditioners, Millenia provides a cooling effect that's as natural as a sea breeze. Convairevaporative air conditioners contain no harmful CFC gases; fresh air is drawn into the cooler, then cooled as it passes through water-soaked cooling pads. Nothing could be more natural or healthier.

#### For the technically minded

Air Flow	1,010 m <sup>3</sup> /hr
Cooling Effect*	971 watts
Room Area	15 - 18 m <sup>2</sup>
Power Input	85 watts
Water Capacity	15 litres
Dimensions	- shipping 765 (H) x 565 (W) x 370 (D) mm
	- operating 1020 (H) x 540 (W) x 430 (D) mm
Weight	- shipping 13 kg
	- net 12 kg

\*Achievable with ambient 38°C DB, 21°C WB and room temperature of 27.4°C.
